Education

STI College

Degree of Bachelor of Science in Information Technology

Thesis: SEECAPP: A Student Express and Challenges App with Language Filtering and Data Analytics for STI College Caloocan

Certifications: Java, Linux Fundamentals

Caloocan City

2021-2025

Inventors School of the Philippines

Information and Communications Technology

España, Manila

2017-2019

Experience

Northgate Technologies Inc.

QA Warehouse Intern

Quezon City

Feb to May 2025

- Conducted product inspections on hardware components to ensure 100% accuracy and compliance with company specifications and standards
- Logged product status and discrepancies, reducing item returns and undetected malfunctions
- Assisted in documentation and reporting of inspection results for internal audits and process reviews

STI College Caloocan

Student - Capstone Project

Caloocan City

2024-2025

- The web application serves as a backend platform where faculty can access, monitor, and manage student-submitted reports.
- Students use the mobile app to express concerns or report facility issues, which are then sent to the web platform.
- Integrated language filtering system ensures respectful communication by detecting and blocking inappropriate words.
- The web app displays categorized reports and trends, helping the Student Affairs Office identify recurring issues and make informed decisions.

STI College Caloocan

Student - Game Development

Caloocan City

April to May 2024

- Utilized user interface elements with the usage of UI/UX principles in consideration of intuitive gameplay experience and focusing on game logic, algorithms and rules

STI College Caloocan

Student - Payroll System

Caloocan City

2023

- Developed a system managed by the admin to deliberately foresee employee and employer transactions
- Utilization of C# windows form with CRUD and Microsoft Management Server System
